

Sophia Group Mission Statement 2012

A keen enthusiasm for studying the Daishonin's Buddhism is the hallmark of Sophia Group members across the country.

We, Sophia Group members, are committed

- to understanding the history of the SGI,
- to understanding the significance of the district discussion meeting,
- to deepening our understanding of the oneness of Mentor and Disciple,
- to infusing the joyful spirit to study into our districts in the most natural and effective way through
 - home visitation,
 - monthly study meetings,
 - 4-divisional district study and
 - fully engaging in the success of the SGI-USA Study Exam Program.

We, as Sophia Group Members, will actualize what President Ikeda refers to as "our 'living' study movement, in which ordinary members earnestly study the Daishonin's teachings and put them into practice in their daily lives." (*World Tribune* December 2, 2011, p. 5)

This is 'study of deepening our faith'.
